The Position

Early Parenting Practitioners are a key member of the clinical team providing frontline care to families to assist in the establishment and maintenance of healthy parent-child relationships.

The role assists parents in learning to care for their young children and themselves as parents.

This may include supporting in the progression of feeding, sleep settling strategies, the importance of play, understanding children's behaviour, and promotion of safety.

All support strategies are founded on a sound understanding of parent and child relationships for the healthy development of children into adulthood. The Early Parenting Practitioner (EPP) establishes and maintains effective supportive, safe and welcoming learning environment for children and their parents. In addition, under supervision of the ANUM or Maternal and Child Health Nurse, they plan, organise, implement, guide and encourage play and age-appropriate learning experiences for young children, encouraging parents to participate.

Responsibilities and Accountabilities.

Key responsibilities.

- Provide high quality child-centred, family-focussed care and support to vulnerable families and their children 0-4 years who are referred to Bendigo Health programs for support.
- This includes working from a relationships and Family Partnership Model approach and having an understanding of the inherent strengths and resilience of families.
- Assist families from diverse backgrounds in a respectful and culturally sensitive manner, recognising different parenting practices and the need for a flexible and innovative approach to parenting support.
- Under supervision of the ANUM or Maternal and Child Health Nurse, conduct comprehensive assessment to meet the complex care needs of vulnerable children and their families including goal setting, interventions and exit planning.
- Work in collaboration and negotiate with key stakeholders (in particular families) to ensure complex care needs are effectively identified and translated into individual tailored care planning and interventions to address issues or concerns.
- Assist families within a multidisciplinary team to build the capacity of parents to meet the child's health, safety and developmental needs, and to build self-resilience through linkages to community and health supports to meet complex family needs and circumstances.
- Assist parents in learning to care for themselves as parents and their young children including support around feeding, importance of play, sleep settling strategies, understanding children's behaviour and promotion of positive responsive interactions.
- Establish and maintain an effective supportive, safe flexible and welcoming learning environment for children and their parents.
- Ensure that client rights and needs are being met.
- Collate and maintain high quality documentation. This includes obtaining input from families together with other key stakeholders, as part of Bendigo Health's documentation requirements.
- Provide support to other team members to maintain service delivery where there are competing demands on time and resources.
- Contribute to a positive workplace and a culture of learning.

Key Selection Criteria

Essential

1. A diploma level or higher qualification in Early Childhood Development, Community Services, Infant Mental Health or an Enrolled Nurse.
2. Experience working in partnership with families in the health/welfare sector, which may include home-based family services and/or long day child care.
3. An understanding of child development and the factors that can impede a child's development.
4. Excellent communication, organisational and ability to be self-directed.
5. Demonstrated evidence of willingness to contribute to a positive/learning workplace culture and of behaviours that reflect Bendigo Health values.

Desirable

6. Previous experience working in an Early Parenting Centre or Mother Baby / Parent Infant Unit.
